WHEATHERSTONE PROPERTY OWNERS ASSOCIATION

March 1988

Now that the danger of ice is, hopefully, in the past, the City of Lake Oswego will sweep up the gravel that was deposited last winter. The board will be signing a contract with the City of LO to sand our streets at the same time they do the rest of Mountain Park.

The gutters are being repaired as the need arises. Many will have to be replaced, probably this summer. The fences also are being repaired. If you have any problems with either your gutters or fences, please contact Ron Lincoln.

It is almost time to get out and paint some more railings again. Anyone interested in joining a work party on a nice weekend, call Ron Lincoln, 636-7273.

We have some new neighbors, Travis and Angelina Owens, in #94.

Not too much news this time but if anyone has anything they would like put in a subsequent newsletter, please contact Elisabeth Clark, 635-5904.
